

## Full-time iOS developer career posting

### Company Introduction

New Start Mobile, LLC is a leading developer and operator of coaching, administrative and related technology solutions for national sport governing associations. These clients are domestic and international and include USA Lacrosse, USA Baseball, USA Hockey, US Sailing and the USTA. Our workplace and culture are honest, positive, respectful, stimulating and rewarding. We have an office in beautiful Northeast Harbor Maine, but most associates work entirely remotely. Benefits include paid vacation, company paid medical, and matched 401k.

### Job Description

We are looking for a full-time iOS developer responsible for the development and maintenance of applications aimed at a range of mobile phones and tablet computers. Your primary focus will be development of iOS applications and their integration with the company's back-end services. You will be collaborating with other engineers and developers working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and the creation of quality products is essential. You will also be an initiative-taker who can work independently and complete tasks according to time requirements. You don't have to know anything about sports to be successful at this position!

### Responsibilities

- Daily participation in the SCRUM process
- Understand the context of the clients(s) domain to better understand how users will operate the application.
- Design and build applications for the iOS platform.
- Ensure the performance, quality, and responsiveness of applications.
- Collaborate with a team to define, design, and ship new features.
- Identify and correct bottlenecks and fix bugs.
- Help maintain code quality, organization, and automatization.
- Participate in client and internal meetings, as required.

### Skills

- Proficient with Objective-C and Cocoa Touch
- Proficient in Swift, with a good knowledge of its ecosystems and package management
- Experience with iOS frameworks such as Core Data, Core Animation, WKWebView, etc.
- Experience with offline storage, threading, and performance tuning
- Familiarity with RESTful APIs to connect iOS applications to back-end services
- Knowledge of other web technologies and UI/UX standards
- Understanding of Apple's design principles and interface guidelines
- Experience with SwiftUI, Combine, and Reactive programming principles is a plus
- Familiarity Apple Push Notification Service and Firebase Cloud Messaging is a plus

- Understanding of benchmarking, instrumentation and optimization tools
- Proficient understanding of code versioning with Git
- Familiarity with continuous integration
- Experience with TestFlight and App Store Connect
- Educational requirements: High School Diploma or Equivalent and holder of an associate degree, bachelor's degree (or working towards these) or higher.
- Educational requirements: High School Diploma or Equivalent and holder of an associate degree, bachelor's degree (or working towards these) or higher.

### **Salary**

The hiring range for this position ranges from \$66,000 - \$82,500. The rate of pay offered will be dependent upon candidates' relevant skills and experience.
